PARTNERSHIP

## Fundsquare-Kurtosys data disclosure offering

Fundsquare and Kurtosys have integrated their respective expert solutions and services around data dissemination and web solutions

This unique offering enables Asset Managers to comply with data disclosure requirements

**A natural combination, which brings simplicity and added-value:**

### Asset managers will benefit from:

- Multi source controls on data
- Synchronisation of regulatory transmission and investor disclosure
- Multi-channel usage of information
- End-to-end transparency and control over data life cycle, up to the investor
- Significant reduction in data publication issues
- Quicker time to market for critical sales
- Cost savings

With a unique combination of services covering fund information and regulatory compliance, Fundsquare provides opportunities for all companies active in cross-border fund distribution.

We focus on enabling fund actors to improve and streamline their existing distribution processes, as well as creating greater efficiency value allocation around the entire fund supply chain.

As a subsidiary of the Luxembourg Stock Exchange, Fundsquare operates as a fund market utility.
